Factory Prices, Excellent Service

WENZHOU HESANK CRAFTS CO., LTD.

Introduction

Wenzhou Hesank Crafts Co., Ltd. (Since 1996)

Hesank is a custom metal crafts manufacturer offering end-to-end OEM and ODM services. Our fully integrated production line includes mold making, die-casting, stamping, etching, engraving, plating, spraying, and enameling, all certified by INTERTEK. We handle both small and large orders, with a daily capacity over 100,000 pieces.

We focus on fast responses, reliable quality, factory-direct pricing, and great service, serving clients in over 50 countries with metal crafts that blend artistry and lasting value. Contact us for inquiries!

Other Custom Metal Crafts

We also offer premium custom metal crafts such as metal cards, tie clips, belt buckles, cufflinks, and more. Custom metal cards can be used as business cards, VIP membership cards, or exclusive invitations. Tie clips and cufflinks, as stylish accessories, are perfect for corporate gifts, wedding favors, or professional occasions. Belt buckles reflect personal style and are great for promotional items or commemorative events. We offer a variety of customization options, including different shapes, finishes, and personalized designs, helping you create unique metal crafts that perfectly represent your brand or special moments.

NO.	Technology	Features
1	Soft Enamel	Uses soft enamel paint with vibrant colors, ideal for detailed logos and badges.
2	Hard Enamel	Provides a smooth, durable surface, perfect for high-end products and long-term use.
3	Sticker Epoxy	Combines stickers with epoxy resin, providing a smooth finish, suitable for budget-friendly custom items.
4	UV Printing	Utilizes UV-cured ink, great for intricate designs and details, with excellent wear resistance.
5	Soft Enamel Epoxy	Combines soft enamel with epoxy resin, offering vibrant colors and added durability.
6	Silk Screen Print	Uses silk screen printing, perfect for mass production with simple designs and text.
7	3D Relief	Three-dimensional engraving adds depth, commonly used for high-end custom awards and souvenirs.
8	Glitter Effect	Adds glitter powder for a sparkling effect, perfect for fashion, personalized, or festive gifts.
9	Laser Engraving	High-precision engraving that captures fine details, ideal for metal and wood materials.
10	Corrosion Hollowing Out	Uses chemical corrosion to create hollow patterns, providing unique and intricate effects.

01

Design

We provide professional design services based on your creative ideas, application scenarios, and product requirements. Simply share your sketches, logo, or reference images, and our design team will refine the details and create a production-ready draft that is both visually appealing and technically feasible.

02

Sampling

Once the design is confirmed, we will create a physical sample based on the finalized drawing. Sampling is a key step to ensure the final product meets your expectations. We select appropriate materials and processes to produce a small batch, ensuring the appearance, size, and functionality align with your requirements.

03

Confirmation

After the sample is completed, we will send detailed photos or the physical sample for your approval. You can review the product's color, structure, details, and texture. If needed, we can make revisions and resubmit the sample until it meets your satisfaction for mass production.

05

Custom process

Shipping

When production is complete, we offer multiple shipping options including express delivery, sea freight, and air freight—allowing you to balance time and cost. All products are securely packaged to prevent damage, and tracking information is provided for your convenience.

Mass Production

Once the sample is approved, we begin mass production in full accordance with the confirmed specifications. Our production process ensures consistency and quality across every item. With skilled manufacturing and strict quality control, we deliver products efficiently and reliably.

After-Sales Service

We provide comprehensive after-sales support. If there are any quality issues or damages during shipping, simply contact us—we'll resolve the issue quickly to ensure your satisfaction. Regardless of order size, we stand behind every product and are committed to responsible service from start to finish.
